### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Schell on 7/21/04.

The application has been amended as follows: The title has been changed to – Method of making a seal formed from polymer laminated metallic constructions--.

The claims have been amended as on the attached pages.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: regarding claim 21, the prior art of record does not teach or fairly suggest a seal formed from a polymer layer and a metal layer wherein the polymer extends the entire length of the metal layer and extends beyond one end of the metal layer projecting away from the metal layer forming a sealing member wherein both layers are bent together to form the seal. Regarding claim 26, the prior art of record does not teach or fairly suggest forming a seal by forming two separate sections each having a casing and a sealing member bonded together and bending the combined casing and sealing members together so that a contoured region exists along which both extend wherein the sealing member extends beyond and away from the casing member and joining these two sections such

that the casing members are bonded together. Regarding claims 28 and 29, the prior art of record does not teach or fairly suggest forming a seal by forming two separate sections each having a casing and a sealing member bonded together and bending the combined casing and sealing members together so that a contoured region exists along which both extend wherein the sealing member extends beyond and away from the casing member and joining these two sections such that either the two casing members contact each other or the two sealing members contact each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara J. Musser whose telephone number is (571) 272-1222. The examiner can normally be reached on Monday-Thursday; alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Blaine Copenheaver can be reached on (571)-272-1156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
